The President

By ALFRED HENRY LEWIS.

Illustrated by JAY HAMBIDGE. Price \$1.50.

A story full of dramatic incidents, absorbing in its interest, extraorlinary in its inner glimpses of the great game of national politics. President" is first of all a novel, picturing striking phases of life in Washington. Wall Street and elsewhere, revealing intrigues, and full of drahappenings. A most interesting love story runs throughout. "The President" is more thoroughly a novel than "The Boss" in the development of love interest and intrigue. But the author has drawn upon his extraordinary knowledge of the inside of political life, and he tells a remarkable story. "The President" is a book that will be heard from everywhere.
